About Me

Eleventh-semester Systems Engineering student at Universidad Francisco de Paula Santander, with a full stack profile oriented mainly toward frontend development. Experience in web development, systems analysis, requirements gathering, and technical and project documentation, with an interest in artificial intelligence. Responsible, organized, and proactive, with strong teamwork and fast-learning skills.

Skills

Web Development:

HTML, CSS, JavaScript, Bootstrap, PHP, MVC Architecture

Databases:

MySQL (phpMyAdmin, XAMPP)

Analysis & Documentation:

Requirements Gathering, Systems Analysis, UML Diagrams, Technical Documentation, Project Documentation

Other:

Software Reengineering (academic projects)

Soft Skills:

Teamwork, Responsibility, Self-discipline, Fast Learning, Organization

Projects

Community Information Website – Junta de Acción Comunal de Patios

Feb 2023 – Jun 2023

- Participation in the development of an informational website to keep the local community informed.
- Features for news publishing, event announcements and event registrations, with administrative access.
- Development using PHP and Bootstrap.
- Support in MySQL database management in a local XAMPP environment.
- Application of initial requirements gathering and system analysis concepts.
- Collaborative team project focused on community impact.

Facial Recognition System Using Convolutional Neural Networks (CNN)

Feb 2024 – Jun 2024

- Research and analysis of Convolutional Neural Networks (CNN / MTCNN) applied to facial recognition.
- Development of a facial recognition application using Python and specialized libraries for computer vision and machine learning.
- Implementation and evaluation of neural network models in controlled environments.
- Integration of web frontend technologies such as HTML, CSS, Bootstrap, and Tailwind CSS, applying responsive design principles.
- Strengthening skills in artificial intelligence, technical documentation, analysis, and collaborative work.

Mini E-commerce Web Application – Moto Repuestos Melo

Feb 2025 – Jun 2025

- Development of a mini e-commerce web application for local motorcycle spare parts sales.
- Implementation using HTML, CSS, JavaScript, PHP and Bootstrap under MVC architecture.
- MySQL database management through phpMyAdmin.

- Application of software reengineering, rebuilding the system from a previous HTML-only version.
- Modules for product publishing, inventory management, sales and administrative control.
- QR-based payment system with payment receipt upload and status validation.
- Automatic invoice generation with QR codes.

Administrative and Inventory Management System – Moto Repuestos Melo

Feb 2025 – Jun 2025

- Development of a web-based administrative management system focused on inventory, orders, sales, and mechanic appointment scheduling.
- Implementation using HTML, CSS, JavaScript, PHP, Bootstrap and MySQL.
- Creation and management of mechanics with manual and automatic appointment assignment based on availability.
- Active participation in requirements analysis, system design, and technical documentation.
- Team-based development under project management principles.
- Project deployed in local testing environment.

Professional Experience

Administrative Assistant (Student Internship) – ISA Consultores

2018 – 2019

Accounting Company

- Completion of 100 hours of student internship as an administrative assistant.
- Organization and control of payment and accounting vouchers in physical filing systems.
- Support in bank transactions, including payments and withdrawals.
- Assistance in maintaining order and documentation control for accounting processes.

Education

Francisco de Paula Santander University– Cúcuta, Colombia

2020-2 – present

Systems Engineering

Courses

<u>Problem Solving and Effective Decision-Making</u> <i>Coursera</i>	Dec 2024
<u>Linux Essentials</u> <i>Cisco</i>	May 2025
<u>Operating Systems Basics</u> <i>Cisco</i>	May 2025
<u>IPv6 Basics (3rd Edition)</u> <i>LACNIC</i>	Dec 2025
<u>Introduction to Cisco Packet Tracer</u> <i>Cisco</i>	Sep 2025
<u>Networking Devices and Initial Configuration</u> <i>Cisco</i>	Nov 2025
